(c)
Fano factor of submersions
Poisson
counting window (s)
(d)
failures: rhythm / clear cue
timing information D (bits)
(e)
cumulative probability
longest immersion per 270 s (s)
(a) breath every 5 s
breath when airway clear
dry
wet (breath or airway)
(b) every 5 s
wait: airway clear
wait: crest passed
best possible
(c)–(e) E2
